Make it Once. Make it Mighton.

Established in 1983, Mighton Products Ltd is a family-owned business based in Hinxton near Cambridge. The company was initially formed by Mike Derham (who started out as a Joiner making timber sash windows) to supply nylon sash pulleys, cord, and sash weights.

Since those early days, the company had added casement window products, door hardware and more recently bifold hardware and a range of high-quality joinery paints and coatings.

Today, the product range stretches to around 3000 items however, timber sash windows remain the company's main passion.

Mighton Products is rapidly expanding and now supply many countries around the world. We are constantly working with leading brands, providing the service and quality they expect from a market leader. But we haven't forgotten our roots so the small joinery shop, decorating business or homeowner all receive the same service.

We know that you want to talk to someone that understands what you are looking for and can advise you where to look. Our knowledgeable team are trained to advise on all of our products and we offer help and advice to make sure you are able to make the right choice.

Casement Handles

Crafted from high-performance zinc alloy, Mighton Eleganza handles are easy to install and operate, making them ideal for PVCu, aluminium, and timber casement windows. The contemporary design includes an ergonomic lever shaped to fit your hand and a teardrop button for added comfort. The rose incorporates slide-and-clip screw cover for easy installation.

Mighton Eleganza range has undergone independent testing for 50,000 cycles to ensure reliable operation and salt spray testing to meet industry standards for a durable finish.

- ✓ Corrosion resistance – salt spray tested to BS EN 1670
- ✓ Supplied complete with 40mm spindle, 2 fixing screws, 1 key and 1 cover cap
- ✓ 10 years mechanical operation guarantee
- ✓ 10 years painted surface guarantee
- ✓ 5 years plated surface guarantee
- ✓ Tested to 50,000 cycles
- ✓ Extra keys and other spindle lengths available to order
